

## Biography Stormbringer

Stormbringer is the most authentic Deep Purple tribute band in the Netherlands and certainly the most dynamic one! The band consists of top notch musicians with a common love for classic rock and Deep Purple in particular!

A recreation of the sights and sounds of Deep Purple with great confidence and superb technical execution. With attention to detail of the original, while providing an energetic and thundering performance of legendary songs like Highway Star and Burn and sizzling and compelling Mistreated and Child in Time.

Stormbringer has with its DP repertory some of the most amazing pieces of rock music ever written, including the most famous riff of all time in the great and incomparable "Smoke on the Water." A typical set of Stormbringer reflects the entire spectrum of Deep Purple from the first hit "Hush" from 1968 until the surprising reunion of the classic MK II line up of 1984.

Regardless of which version of Deep Purple you prefer, the Mark I Line up (Ian Paice, Jon Lord, Ritchie Blackmore, Rod Evans, Nick Simper), MK II (Ian Paice, Jon Lord, Ritchie Blackmore, Ian Gillan, Roger Glover), Mark's II & IV (Ian Paice, Jon Lord, Ritchie Blackmore Glenn Hughes, David Coverdale) to the Mark's VII and VIII (Ian Paice, Ian Gillan, Roger Glover, Steve Morse, Don Airey), with Stormbringer you will be amazed by the direct, pure brutal rock quality that Deep Purple stand for.

With Stormbringer, the Deep Purple material is in safe hands and the unparalleled heroic music is still a joy to experience in a performance with the power that was intended when it was written. Classic rock deserves a classic and authentic tribute, powerful, moving, overwhelming!
